Everything in this product is done with a special care to ensure the quality of this product.

Fonts Used:

1. Roboto
2. Open Sans
3. Lato

Instruction:

1. Please download the fonts before opening the Photoshop file in your System. (All the fonts will be available on Google Fonts)
2. All the images have to be selected and inserted by you. It's not necessary that the images should be same as the Demo File Includes.
3. PSD will help you to create the layout, to fetch the colors, logos and icons. But a good developer should know what to use where.
